Homesteaders Want Railway.

A delegation of homesteaders north and west of Didsbury will wait on the government during this week with a novel plan for disposing of the Lacombe and Northwestern railway, which runs from Lacombe northwest, and at present is as far as Hoadley, which is west of Wetaskiwin. The delegation which will meet the government this week, suggests that the government hand over to one of the transcontinental railways, preferably the C.N.R., the Lacombe road, on condition that it be extended to the west of the C.P.R., all the way down to Calgary, serving comparatively large district west of the C.P.R. railway.

The Homesteaders have already been in communication with the minister of railways.

Feeders' Day at Edmonton Spring Show.

The Department of Animal Husbandry of the University of Alberta is arranging to stage the annual "Feeders' Day" this year on April 10th. This is the last day of the Edmonton Spring Show and it is being held at this time in order to give fair visitors an opportunity to take in this event at the University. The results of the feeding trials conducted during the past year in which 80 steers, 320 hogs and 20 dairy cows have been used will be presented and discussed. The interesting feature in connection with the day's program will be the fact that those in attendance will have an opportunity of inspecting the animals and on this basis decide the relative merits of the different rations used. "Feeders' Day" has now become an established event at the University of Alberta and the increased attendance each year indicates that this is a very satisfactory method of giving publicity to the results of livestock experimental work.

Burnside.

The Lone Pine Women's Institute held a bazaar and whist drive last Wednesday evening, which was well attended and netted a good sum for the ladies. Manager Sharp of Didsbury, who was on his way to Sunnyslope to put on a picture show, found the roads too bad to make his appointment and very kindly offered to put it on for the benefit of the institute. The play was much enjoyed by all present.

The W. I. is donating the paint for the new Lonepine Hall from the proceeds of the entertainment.

The Burnside U.F.A. are putting on a dance on Friday evening, March 26th, in the Lone Pine Hall.

Mr. Ralph Long who has spent the winter visiting Mr. and Mrs. Jon Clark, left Saturday for Calgary, accompanied by Mr. Harold Metz.

James and Annie McCulloch and Mr. and Mrs. Sam Elliot, spent Sunday evening with Miss Helen Pross, who was celebrating her birthday that day.

We are glad to hear that Mrs. Charles Mardon, who has been very ill in the Didsbury hospital, is much improved this past few days.

B. B. Weber attended the funeral of a sister in Calgary on Tuesday, last.

THE NEW STAR FOUR TOURING CAR.

Incorporates the most advanced features of motor car design, finish and equipment. Low-hung, roomy and sturdy, it is the ideal general purpose car. **NEW CARS ARRIVED THIS WEEK.**
COME IN AND ASK FOR DEMONSTRATION.

Lutheran Lenten Service.

WESTCOTT — ALBERTA
Rev. C. J. A. Nissen
pastor

MARCH 28—8 p.m.,
English.

"Weep not for me, but for yourselves and for your children."—Luke 23:28.

In the Lord's Passion sympathy and compassion have no place. Tears of repentance are the need of the hour.

This service concludes the present Lenten services. If you have not attended before attend now.

Westcott.

Clippings from the "Westcott Observer"

Mr. John Weidner, Mr. Carl Russell and families visited the Holmquist brothers on Sunday last.

Miss L. Eifert, who has been visiting Mr. and Mrs. Ira Scott, left on Saturday last to visit her sister at Beaver Dam.

Mrs. Amos Wilson and son Clyde have returned to Calgary after their short stay with old friends in the Westcott district.

We wonder where Ed. Klink's eyes were when he ran into the mud hole with his New Chev. "coop" last Sunday.

The Ford Bros., R. E. and M. spent Sunday evening at the home of Mrs. Hughes.

The Minstrel Show which was staged last Friday evening in the Westcott school, called forth the heartiest congratulations for the minstrels for the audience and everyone seems to agree that it was credit to the talent of the district. A good hearty laugh is the best of spring tonics.

The Literary and Musical Club will meet again on April 2nd, when the program will be given by the ladies of the district. This will undoubtedly be an "ideal" program, so let's all come out and encourage them as much as possible.

Mr. H. D. Brown has bought a Gray Dort car from C. Wilson of Calgary. H. D. seems to still have a little faith in the old make.

Mr. E. Klink and Miss G. Hunsperger visited with Mr. and Mrs. J. Hughes Sunday evening last.

Miss Alice Rennie spent Saturday night with Miss Genevra Brown.

Mr. Wallace's new bungalow is well nigh completed. We are all watching his next move.

If anyone wants to know how the roads back west are, Jack Bagshaw is a reliable source of information.

World Wide Reforms

All worth-while reforms are slow of accomplishment because the people of the world are essentially conservative in their thought and action. It is perhaps well that this should be so, otherwise nations might be stamped into the acceptance of unsound theories and hastily conceived and ill-considered policies leaving loss, suffering and ruin in their wake.

But there is such a thing as being too ultra-conservative, and so bound by old-time precedent and usage that wise progress and sane advancement is made extremely difficult and for long years impossible. Such extreme conservatism is baneful. Danger there may be from the optimistic reformer who urges his pet theory or scheme as a "cure-all" for the ills from which mankind and the body politic may suffer, and as the key which will open the door to Utopia. But there is equal danger from the chronic pessimist who scoffs at everything new and declares "it won't work."

For a long time there have been advocates of a reform of the system of currency in Great Britain, and of the systems of weights and measures in Great Britain, Canada, United States and some other countries. These advocates have consistently and persistently urged the adoption of the decimal and metric systems. They have carried on a work of education which apparently is going to bear fruit. At all events, official cognizance is being taken, both in Britain and the United States, of the growing strength of the demand for reform in these matters.

Great Britain, with its world-wide trade and commerce, cannot afford in these days of rapid communication and transportation, and intense world competition, to cling to its present rather archaic system of pounds, shillings and pence, when all the other great trading nations have adopted the decimal system.

Nor should Canada and the United States continue to adhere to their equally out-of-date systems of weights and measures with twelve inches to a foot, three feet to a yard, 1,760 yards to a mile, two pints to a quart, four quarts to a gallon, not to mention grains, ounces, pounds, pecks, bushels, tons, etc., with avoirdupois and troy weights.

The adoption of the metric system of weights and measures would enormously simplify not only all international commerce but our own domestic business as well. Soldiers of all nations serving in France soon discovered how simple and easily understood is this metric system, and undoubtedly their experience and knowledge is having its effect in influencing the more pronounced agitation for this reform which is in evidence throughout the world.

Another question which is coming to the front is the reform of the calendar. Interested as it is in the removal of all causes of misunderstanding, and in promoting the most friendly internationalism, the League of Nations is taking an active part in connection with these reform movements, and at the present time one of its committees is giving consideration to numerous plans submitted to it, providing for a reform of the calendar. One of the few plans reserved for further study out of the large number submitted is by a Canadian, and provides for a year of thirteen months, each of 28 days. Under this plan the first day of each month would be a Sunday. The present names of the months would be continued, but a new month created out of the last half of June and the first half of July. In order to make up the full 365 days of the year, there would be one day at the end of the year to be known as "Year Day." The convenience of having all months of equal length, and of having the days of the week always falling on the same dates, can hardly be overstated.

There would naturally and inevitably be some confusion at first during the short period of readjustment from the present time-honored systems and customs to the new, but the admittedly great economic gains and conveniences which would result from these proposed changes would surely far outweigh the temporary inconvenience.

Canada led the world in adopting the now universal system of standard time under which the globe is mapped out in zones within which the time is uniform. Canada, like the United States, has a decimal monetary system. Why should the Dominion not lead the way on this continent at least by adopting the metric system of weights and measures, and also throw the weight of its influence into the scale in favor of a reform of the calendar?

Date Not Yet Fixed

Correspondence in regard to the next Imperial conference has been passing between the British and Dominion Governments. The date suggested for the conference, it is understood, is at the end of October, but so far as can be ascertained, there has not yet been a definite agreement.

Trying To Increase Egg Production

How a hen can be made to lay two eggs in a day, is the text of an experiment being conducted at the State University poultry farm Morgantown, W.Va. It is hoped that by cross-breeding this will be made possible and enable the university to equal the world's record of 316 eggs in one year.

Children Cry for

**Fletcher's
CASTORIA**

MOTHER:—Fletcher's Castoria is a pleasant, harmless Substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups, especially prepared for Infants in arms and Children all ages.

To avoid imitations, always look for the signature of *W. H. Fletcher*. Proven directions on each package. Physicians everywhere recommend it.

Falls Heir To Fortune

Orphaned at the age of five, a bride of 16, a scrubwoman at 17, toiling for a meagre wage to augment the small pay earned by her husband, Selena Campbell, 17 Madison, Wis., now sees the world at her feet.

She has fallen heir to \$750,000. An uncle she never knew, John Randall, died recently at Indiana Harbor, Indiana, leaving an estate of \$750,000 without a will and without known relatives except Selena Campbell.

Her husband, Michael, is a sign painter.

"DIAMOND DYES"

Just Dip to Tint or Boil to Dye

—everything!

Buy Diamond Dyes—no other kind—and tell your druggist whether the material you wish to color is wool or silk, or whether it is linen, cotton or mixed goods.

It's a great pity that men can't find an insurance company willing to take risks on their air castles.

Enjoy The Pleasure Of Perfect Health

Dodd's Kidney Pills Purify the Blood, and Pure Blood Means Good Health

Mr. J. Leveille was Relieved of Kidney Trouble by Dodd's Kidney Pills After Other Remedies had Failed.

St. Lucien, P.Q.—(Special).—"For three years I suffered with bad kidneys. I tried different remedies but they did me no good. Having read in my almanac of numerous persons being relieved, I tried four boxes of your excellent pills and felt better immediately. I shall tell my relations who suffer from kidney trouble that they can take Dodd's Kidney Pills with perfect confidence."

This statement comes from Mr. J. Leveille, a well known resident of this place.

If you enquire among your neighbors you will find scores of people who have discovered in Dodd's Kidney Pills relief from some form of kidney trouble. It may have been the dry, itching skin, dizziness, nervousness and inability to get refreshing sleep that mark the earlier stages of the disease, or it may be diabetes, dropsy, rheumatism or some other of the dangerous diseases that mark its advanced stages.

Through Service For Steamship Passengers

Canadian Pacific Railway Inaugurates Through Tourist Sleeping Car Service

For the convenience of western passengers enroute to the Old Country, the Canadian Pacific Railway have inaugurated a through tourist sleeping car service from Winnipeg to Saint John, N.B.

These cars will leave Winnipeg on "The Imperial" at 10.00 a.m. every Tuesday until April 20th, providing through service to the ship's side at Saint John.

This service will prove extremely popular with passengers from the prairie provinces, eliminating as it does, changing trains at Montreal.

Want Designs For Cenotaph

Fund For Prince Albert War Memorial Is Now Complete

The Prince Albert War Memorial Association has decided to go ahead with the selection of designs for a \$10,000 memorial to be erected in the city, which is to be unveiled and dedicated next Armistice Day. The association is inviting Canadian sculptors to submit designs without delay. The amount required has been raised by voluntary subscription and the memorial is to occupy a commanding position in Victoria Park, on the summit of the hill which overlooks the city from the south.

Minard's Liniment used by physicians

W. N. U. 1620

New Steel Takes Razor Edge

Modern Product Developed By Ohio Man Is "Hard, Yet Pliant"

Many of the qualities of the celebrated Damascus steel are said to be found in a modern product which an Ohio man has developed by a secret process. He combines iron and carbon in such a way that the resulting steel will bend, keep an edge of razor sharpness, is tough and can be driven through other steels without breaking. A bar of the material, fifteen inches long, was tempered to five different degrees, one end of it being hard enough to cut glass, a section was sharpened like a razor and would cut dry hair without honing or stropping, while other parts in the same bar would cut off a spike under blows of a hammer, would spring or could be bent backward and forward with the thumb and forefinger without breaking. Vanadium is an important element used in the preparation of the steel.—Popular Mechanics.

Of Interest To Housewives

Prize Is Offered For Best Letter In Interesting Contest

Twenty-one prizes—1st prize \$25 and 20 of \$5, will be given for the 21 best letters of not more than 350 words telling: How you came to use Borden's St. Charles Milk—why you like it—anything new you've discovered about it or its uses.

Your letter may cover any one or all of these points. For the best letter—a prize of \$25. For the twenty next best a prize of \$5 for each. No rules, except that each letter must contain a label of a Tall Size tin of St. Charles Milk. Be sure your letter is mailed to the Contest Editor, The Borden Co. Limited, Montreal, not later than Easter Monday, April 5th.

Asthma No Longer Dreaded. The dread of renewed attacks from asthma has no hold upon those who have learned to rely upon Dr. J. D. Kellogg's Asthma Remedy. So safe do they feel that complete reliance is placed on this true specific with the certainty that it will always do all that its makers claim. If you have not yet learned how safe you are with this preparation at hand get it to-day and know for yourself.

Says Lloyd George Has No Political Future

Will Never Unite Liberal Party
Opinion of Sir Henry Lunn

Mr. Lloyd George has no future as a political leader, in the opinion of Sir Henry Lunn, British traveller, former M.P., religious journalist and philanthropist, whose renunciation of his private fortune to be devoted to promoting unity in the churches and peace among the nations of the world was announced recently.

Sir Henry gave as his opinion that Mr. Lloyd George is never likely to unite the Liberal party.

Safe

Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocyclic-acid of Salicylic acid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

SUBMIT OFFER TO PURCHASE BIG ELEVATOR PLANT

Regina.—An agreement covering the offer to purchase the elevator system of the Saskatchewan Co-operative Elevator Company, as approved by the pool delegates at an extraordinary general meeting held February 17 to 19, has now been forwarded to that company.

The complete system included in the offer to purchase comprises 451 country elevators, together with annexes, agents' houses, etc., two terminal elevators at Fort Arthur, namely, Terminal No. 1 with a storage capacity of 1,200,000 bushels, and Terminal No. 2 with a total capacity of 6,500,000 bushels, the Transfer Elevator at Buffalo, New York, the company's leasehold interest in the C.N.R. Terminal at Port Arthur, which has a storage capacity of approximately 7,500,000 bushels; and company's office building in the city of Regina, together with furniture, fixtures, etc.

The value of the entire system is to be determined by a board of arbitration composed of three arbitrators, of whom the pool shall select one, the Elevator Company another, and these two shall select a third. The agreement provides that the first two arbitrators are to be appointed within ten days and the third within twenty days after the Elevator Company has notified the pool of its acceptance of the offer.

The sum of \$500,000 in cash will be deposited by the pool prior to the holding of the special general meeting of the Elevator Company, and \$1,500,000 will be paid by the pool on August 1, 1926, making a total payment to the company of \$2,000,000. The balance of the purchase price will be paid in equal annual consecutive instalments of \$1,000,000, which together with interest at the rate of 6 per cent. per annum, are payable on August 1 of each year.

The pool reserves the right to pay off the whole or any part of the purchase price at any payment date before maturity without notice or bonus.

Coal Probe Was Costly

Inquiry Into Nova Scotia Mining Industry Cost About \$30,000

Halifax, N.S.—It was divulged in House of Assembly during consideration of the estimates that Sir Andrew Rae Duncan, chairman of the Royal Commission who recently conducted an inquiry into the coal mining industry in Nova Scotia, received \$1,000 per month as remuneration for his services and the two other members of the commission, Major Hume Cronyn, of London, Ont., and Rev. Dr. H. P. MacPherson, rector of St. Francis Xavier University, Antigonish, \$750 per month each. The members of the agricultural commission which recently completed an investigation of the industry in the province gave their services free, but received travelling expenses. The total cost of the agricultural commission was \$2,000 and of the coal commission approximately \$30,000.

Sugar Shortage In Turkey

Constantinople.—Turkey is suffering from a sugar shortage, which recalls the scarcity experienced in most countries during the war. Sugar bootleggers are doing a thriving business owing to the government's failure to organize the necessary machinery for operating its recently announced monopoly of the sugar business.

Druse Tribesmen Lose Heavily

Beirut, Syria.—The Druse tribesmen who are fighting against the French have suffered serious losses in a heated engagement in the environs of Damascus. The French claim to have lost only one officer and two men killed.

Noted Surgeon Dies

Vienna, Austria.—Prof. Friedrich Dimmer, noted for his researches in optical surgery, died recently, aged 71. He willed his body to the Anatomical School.

New Chemical Element

Urbana, Ills.—Honoring the state and the University of Illinois, the newly-discovered chemical element number 61 is to be called *illium*.

W. N. U. 1620

Wheat Pool Payment

Interim Payment of About \$37,000,000 To Three Prairie Provinces

Regina.—The following announcement was issued by A. J. McPhail, president of the Canadian Co-operative Wheat Producers, Limited:

"The wheat pools in the three provinces, Manitoba, Saskatchewan and Alberta, are making an interim payment of 20 cents per bushel on all grades of wheat. On coarse grains a payment of six cents per bushel is made on oats and barley, ten cents on rye, and 25 cents on flax.

"As a result of this distribution, the initial payment on the different grains on and after March 11, will be as follows:

"Wheat, \$1.20, basis 1, Fort William; oats, 40 cents, basis 2 C.W., Fort William; barley, 56 cents, basis 3 C.W., Fort William; flax, \$1.75, basis 1 N.W., Fort William; rye, 50 cents, basis 2 C.W., Fort William.

"Approximately 190,000 cheques will be mailed from the three provincial offices amounting to a total of about \$37,000,000."

Teach Canadian History

Young Canadians Should Be Steeped In Things Canadian

Vancouver.—"To promote Canadian sentiment we should begin in the schools. Every young Canadian should be steeped in things Canadian and should be taught Canadian history as no other thing is taught. That is not being done," B. C. Nicholas, editor of the Victoria Times, declared in addressing the board of trade here.

"Only on the broad ground of a persuasive Canadianism can this country be united," he declared. "Promotion of Canadian consciousness rests on two basis, the first, sentiment or moral and the second, material or economic."

As a definite formula for creating unity in Canada, Mr. Nicholas advocated increased immigration, the cultivation of foreign trade and the waging of a vigorous campaign of publicity in Eastern Canada to convince people that British Columbia and the port of Vancouver are great national assets.

Vagrant Children Of Russia Form Unions

Bandit Gangs Give Themselves Union Names and Status

Moscow.—Following literally the Communist slogan, "workers of the world unite," groups of the vagrant children of Russia have formed themselves in local "trade unions" and "guilds."

In the Shardsinsk district of the Ural, the street gamins have organized a pickpocket trust, the specialty of which is evident.

In Ekaterinburg groups of homeless boys who have specialized in petty larcenies have joined into the Young Bandit Union. Among the "unions" established by parentless children in Moscow is the "Amalgamated Brotherhood of Young Pigeon Thieves."

Planning Change In Manitoba Liquor Act

Legislation Has Been Introduced to Tighten Up Enforcement

Winnipeg.—Tightening of the enforcement of the Manitoba Temperance Act is provided for in legislation introduced in the Manitoba Legislature by Hon. R. W. Craig, attorney-general. The legislation would limit the definition of a residence to which liquor can be taken and kept, would provide for personal appearance of persons accused of violation of the liquor laws, and would provide for a government appropriation of \$100,000 for enforcement of the laws, instead of \$50,000 as approved by the legislature last session.

Picture Brides From Orient

Victoria.—With a total of 184 passengers, among them 40 Japanese picture brides for destinations, the liner Empress of Australia arrived March 4 from the Orient.

The Nippon brides were the cynosure of all eyes at the steamer dock. Officers of the ship said it was the largest party of their kind ever carried by the vessel.

Word arrived that the next inbound Empress will bring a party of 300 Russian settlers for Alberta.

FIX RATE FOR MOVING ALBERTA COAL TO EAST

Ottawa.—Agreement on a tentative rate of \$9 a ton for hauling coal from Alberta to Eastern Canada was reached at a conference today between Hon. Charles Stewart, minister of the interior; Sir Henry Thornton, president of the Canadian National Railways; E. J. Garland, L. M. Kennedy and L. H. Jelliff, representing federal members from Alberta and four coal operators. The nine-dollar rate is subject to approval by the provincial governments interested.

After the conference, Mr. Garland stated that the agreement provides for the haulage of 200,000 tons of Alberta coal, or whatever quantity can be moved between now and the time that the railway commission issues its finding on the coal rate. The hearing on this matter takes place before the commission in April. Mr. Garland said that under the agreement reached today the \$9 rate is not final. The actual amount to be paid is the out-of-pocket coal rate from the mines to the destination. The proposed rate is to be referred to the provinces for their approval of the increase over the \$7 rate. In the meantime and until their approval is gained, the Dominion Government will guarantee the \$2 difference.

After the railway commission gives a decision on the cost of hauling coal from Alberta, an adjustment will be made between the provinces, the Federal Government and the Canadian National Railways.

Discuss Change Of League Headquarters

Opinion Expressed That Geneva Is Not Entirely Suitable

Geneva.—Lord Cecil presided at a meeting of delegates from the dominions to the league assembly at which the situation here was discussed. A great part of the meeting was given over to the question of building a new assembly hall for the league sessions. This raised the whole question of Geneva's suitability as league headquarters and various views were expressed concerning the cost of living and Geneva's economic and geographic position. Several delegates spoke of the necessity of investigating whether a more suitable centre might be found.

Urge Acceptance Of Design

Winnipeg.—Taking the stand that the status of naturalized Canadian citizens is endangered by the present opposition to the prize-winning memorial design, submitted by Edward Hahn, Toronto sculptor, the Canadian Club of Winnipeg urged the unqualified acceptance of the design. Hahn, who was born in Germany, has been a resident of Canada for 38 years and was naturalized on becoming of age.

For Return Of Alberta Natural Resources

Measure Is Given Second Reading In The Legislature

Edmonton.—Good progress is being made with the Alberta Government's legislative programme. Over forty bills have been introduced into the house, and a number have received second reading, and been passed through committee. Many of the bills are of a non-contentious nature, being consolidations and amendments of existing statutes.

The bill providing for the transfer to the province of its public lands and minerals was given second reading. Opinion on all sides of the house is unanimous in urging this measure.

At present the Dominion Government owns the natural resources of the province. Premier Brownlee said that a bill embodying the agreement with the province would be introduced in the Dominion House, and he did not anticipate any serious objection. The bill was a government measure and he had in addition received assurances of support from Opposition members. Before being passed into law it would require the consent of the Imperial Parliament, but unless other provinces objected, there would be no difficulty there.

The Alberta legislators are also unanimous in asking the Dominion to give the public utilities board of the province control over charters and sales of shares. At present companies are being refused charters by the province and granted them by the Dominion.

Some measure of protection for the public is demanded by the oil boom which recently commenced in Alberta. The province is interested in railways north of Edmonton to the extent of \$35,000,000. None of these railways are paying their way.

The Edmonton, Dunvegan and British Columbia Railway Company was the subject of an all day debate in the house. The Liberals demanded to know what progress was being made in the negotiations for the disposal of these railways, but the government were resolute in refusing to disclose at this time the progress of the negotiations. However, they promised a statement before the close of the session.

The point pressed by the Opposition was that the people of the north country were suffering from the uncertainty caused by the delay, but government speakers said that no possible agreement could give the people bordering on the line any better rate conditions than at present. Furthermore, the people of the province as a whole were interested in their ultimate disposal, as well as the people of the north.

Revealed By Blunder

Victoria.—Through a blunder in the diet, details of a big Japanese naval construction programme were laid bare recently according to advices from Tokyo by the liner Empress of Australia which arrived here.

MOVEMENT OF CANADIAN WHEAT CONTINUES LIGHT

Fort William.—Following is the report of E. A. Ursell, statistician to the board of grain commissioners on the movement of Western Canadian grain crops during February.

"Conditions surrounding the marketing and movement of Canadian grain during the month of February remained almost exactly similar to those obtaining during January. The demand from European importers is quite slight, native supplies in Europe being utilized to the fullest extent possible while good quantities of Argentine and Australian wheats are arriving, which will furnish the bulk of the immediate import requirements. Beyond certain quantities of high grade wheat, necessary to millers producing strong flour, there does not appear to be any prospect of a change in the situation, for the present at least.

The movement of Canadian wheat into consumptive and export channels continues very moderate in consequence. From the head of the lakes the rail movement to the seaboard is extremely light. The unloading of winter storage cargoes afloat at Canadian lower lake ports for movement to the seaboard for export has also been slow, almost 2½ million bushels still remaining to be disposed of, while at Buffalo and other United States ports the total represents another 2½ million bushels. At Vancouver a steady shipment continues, averaging 1½ million bushels received and shipped each week.

"Ocean freight rates from Vancouver continue around 30 shillings per ton to United Kingdom and continent, and \$4.75 to \$5 to the Orient. The small movement from Atlantic ports, however, has made it difficult, at times, for liners to obtain "bottom" cargoes and rates have fallen most markedly.

Fuel Oil Tax In B.C. Illegal

Justice Morrison Of Supreme Court Hands Down Ruling

Vancouver.—The fuel oil tax of one-half cent a gallon passed by the British Columbia Legislature in 1923 and estimated to return an annual revenue of \$400,000, was declared illegal by Mr. Justice A. Morrison in the Supreme Court on the ground that the tax in indirect and ultra vires of the Provincial Legislature.

Although the gasoline tax of three cents a gallon, also passed in 1923 by the legislature was not directly involved in the fuel oil tax case, the statute is analogous, and the reasoning directed against the fuel oil tax is equally applicable against the constitutionality of the other. It is generally conceded that if the fuel oil tax is indirect, that of the gasoline tax is also indirect.

Sign Migration Agreement

Brisbane, Australia.—The government of Queensland has signed the migration agreement to which the British Government is a party and under which the maximum amount of £34,000,000 (\$165,240,000) is to be allotted to the Australian states for the settlement of immigrants. New South Wales is now the only state which has not signed the agreement.

Change In Regulations

Ottawa.—Changes in the regulations in regard to the income tax provide for the filing of returns with the inspector of taxation for the district in which the taxpayer resides. Last year returns were made to the nearest collector of customs and excise, but this practice is now discontinued. The change constitutes a return to the practice which prevailed prior to 1925.

Portugal Offered British Warships

Lisbon, Portugal.—The *Marão* Notice says Great Britain has offered Portugal four warships for £50,000, allowing her facilities for payment. The warships are not obsolete, the paper says, but the British desire to substitute more modern vessels for them.

Town Razed By Hurricane

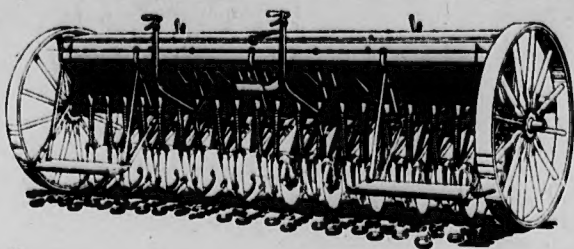

Vienna.—Dispatches to the *Arbeiter Zeitung* say the town of Ljévo in Bosnia was razed by a hurricane and that the entire population is homeless. No mention is made of casualties.

C. N. R. Brings Season's First British Family

Mr. and Mrs. Percy Mobey and their family of six husky children were the first arrivals this season from Great Britain under the "3,000 Family Scheme" of the British Empire Settlement Board. The family cat in a screened box, accompanied them to their new home on Vancouver Island via the Canadian National Railways. The Mobey's, who arrived in Canada about the middle of February, have taken up one of the improved farms of the Canadian Land Settlement Board near Victoria. Mr. Mobey was a farm laborer at Evely, Northamptonshire. His children range from two to 15 years of age. The buildings on their new farm are ready for occupation and everything is in readiness for the spring work.

When you buy John Deere implements you are sure of prompt repair service throughout their long life

You Can Depend on This Drill

You need more than good seed, well-made seed beds and productive soil to enable you to get more bushels per acre.

Most of all, you need a strong, accurate grain drill—a drill that will plant your fields evenly and cover the seed to the proper depth. One that will not clog, or bunch, or skip; one that will maintain its efficiency for many years and save your money on repairs.

John Deere-Van Brunt Grain Drills with Adjustable Gate Force-Feed, during eighty years of successful service, have become established as real money-makers for farmers.

Be prepared to get maximum yields by planting with a John Deere Drill. Come in and let us demonstrate.

"THE GOLD RUSH"

It's A Nugget--A Big One

Be loyal to your Home Town.

Local and General.

Wanted—Quart bottles, must be clean—W. G. Leisemer.

Theo. Reist left Monday evening for Edmonton.

Dr. and Mrs. J. I. Clarke spent Tuesday in Calgary.

Six carloads of settlers' effects were unloaded here last week.

Henry Fisher purchased a fine new Oldsmobile Saturday.

Miss Rood has accepted a position at the Carstairs Post-office.

Mr. and Mrs. A. G. Studer spent last week-end in Calgary.

W. Leadbetter left Tuesday for Claresholm, on a short business trip.

Royds and Kirby shipped four cars of cattle to Vancouver on Monday.

It is rumored that a provincial election for Alberta will probably take place in July.

Gressman Bros. will buy a carload of potatoes on Friday of this week, March 26th.

Mrs. M. W. Low left Wednesday for her farm at Carmangay to make arrangements for seeding.

W. H. Lyons returned from the east last Friday, where he had been visiting friends for several months.

Miss Hazel Buckler, daughter of A. V. Buckler, was married on Monday to Mr. Rowntree of Carstairs.

Mrs. S. G. Watt and children returned home on Sunday from a three month's visit to Buffalo, New York.

A Chevrolet sedan has been purchased from Adshead garage by I. Herber and Ed. Klink has bought a touring.

Roger Barrett unloaded a carload of new "Henrys" this week and we notice Ivan is exhibiting a "Sports Roadster".

W. C. Adam has purchased through Reel and Reiber this week the old Gilchrist property on Railway Street, north.

It is expected that the new pastor for the United Church, Rev. A. E. Hayes of Edmonton, will open his ministry for the first time on Easter Sunday.

Dan Dippel returned on Monday from a visit to High River and reports work is expected to be started on the land at that point sometime this week.

The Didsbury Stock and Produce Co. received a consignment of another car of hogs from the south country this week. They have now at their hog ranch about twelve hundred hogs.

John F. Miller, eyesight specialist of 404 Underwood Block, Calgary, will be at the Rosebud Hotel in Didsbury on Saturday, April 3rd. Tell your neighbors he is better equipped than ever.

A number of old friends of P. P. Dick, now of Altona, Man., had the pleasure of renewing his acquaintance here this week. Mr. Dick, formerly a resident of the district, left here about eight years ago.

Keen interest is being manifested by Didsbury and the surrounding district in the forthcoming production of the famous four-act comedy, "Gumpy" at the Opera House on Wednesday, evening April 7th. Undoubtedly this special attraction will draw a packed house.

Didsbury will be well represented at the annual stock show at Calgary commencing March 31st. Amongst those shipping stock for exhibition purposes this week are Robertson and sons, Hughes Bros., R. McFarlane, Bolander Bros., F. Boulton, John Allen, and J. A. McGhee.

A meeting of golf enthusiasts held in C.P.R. waiting room on Wednesday evening to elect officers and committees for coming season. Owing to the Peterson farm having been sold a short time ago, it is possible that another location will have to be secured, as the new owner will endeavor to break up as much of the land as possible this year.

A new map is being published by the Canadian Pacific. One side will give a bird's eye view of the mountains and on the other side will be a road map showing the principal highways from Calgary and Lethbridge west. It is expected that this will be ready for distribution shortly.

As far as records go, the rivers in Southern Alberta have opened up this year earlier than ever before. The ice went out of the Elbow river on March 14 and started out of the Bow river last Sunday night, March 21. Last year the ice went out of the rivers on April 14, and in 1924 it was two weeks later, or April 23. This year the thickness of the ice was from three to ten inches. In previous years the ice has been known to freeze to a thickness of four feet.

TRAIL RANGERS.

At a regular meeting of the Trail Rangers, the members were addressed by N. S. Clark, who chose for his subject "Farming—past and present," and at some length described the methods of farming in vogue at the time he came west and compared them with the present, and stressing more particularly the advantages of farming.

At the end of Mr. Clark's address, a physical course of exercises was taken up. It may be added that the leader, Mr. Boorman, is endeavoring to secure speakers to give short addresses on various topics with the view of interesting the boys in a career of their own.

NOTICE TO CREDITORS AND CLAIMANTS

In the estate of Ole G. Bugton, late of the district of Didsbury, farmer, deceased.

Notice is hereby given that all persons having claims on the estate of the said Ole G. Bugton, who died on the 17th day of November, 1925, are required to file with the undersigned Executor of his Will by the 8th day of May, 1926, a full statement duly verified, of their claims and any securities held by them, and that after that date the Executor will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed or brought to its knowledge.

Dated this 19th day of March A.D., 1926.

Quality
All-Season Comfort
and **Low Cost**

STORMY weather holds no terrors for the owner of a Chevrolet touring.

This sturdy, all-season car provides real comfort and snug protection against rain, wind, snow and sleet.

Its tightly-fitting, carefully-tailored curtains keep the outside cold from blowing in. Its big, wide doors are fitted with overlapping, weathertight door curtains that are rigidly supported on rods and swing with the doors.

No other car of equal price offers equal quality and equipment. None other combines Chevrolet's famous all-year-round economy with such all-year-round convenience and comfort. In summer it's a speedy, cool, open car; in winter, it keeps you warm and gets you there and back.

If you want all-weather protection plus quality construction at low cost—here is the car to own! Come in—see it today!

The Price of Your Home Paper.

Is Two Dollars for a weekly paper too high?

Subscribers of the "Pioneer" have from time to time stated it is their belief that the price of this paper is too high. This belief apparently is gained because of the low price charged by some of the larger papers—papers having unlimited capital behind them and with the whole Dominion as a field for their enterprise.

Here is the view of the Dufferin (Man.) Leader, which covers the case practically for every local weekly:—

"Every now and then the publishers of 'country weekly' newspapers are invited by puzzled subscribers to explain why the four- or six- or eight-page newspapers they publish are higher in yearly subscription price than numerous forty- or sixty- or eighty-page 'national' journals they are familiar with. To readers of the Leader who have pondered this mystery and are sincere in their desire for information, and to those who are inclined to resent the apparent assault upon their purses in the recent increase of the price of this paper, the publisher desires to submit a few facts which, if not convincing to all, will be interesting to many.

Stating it frankly, the country newspaper publishers' difficulty lies in the fact that the reading public has been "spoiled" by the large publishing houses insofar as subscription prices are concerned. With them, the subscription price is not regarded as a source of revenue; it is merely a nominal fee that must be charged in order to obtain benefit of postal newspaper rates which weekly publications enjoy. The advertiser pays the shot. The publishers of great weekly journals could afford to send their papers out free by the million copies, by reason of the obtain, were it not for the postal regulations. As it is, they are satisfied to receive a subscription price which the post office department regards as reasonable and which is not expected even to cover the cost of paper actually used in the publication; it does well, even to meet the postal charges at the special newspaper rates.

Immense output is also an important factor. Every man owning an automobile knows what large-scale production means; if autos were built as newspapers are published—by thousands of independent firms, in small plants—there would be fewer cars by millions in use today.

Advertising revenue, mentioned above, is interesting to consider. Advertising has developed to such an extent in recent years that it has boosted the printing industry into third place in the list of industries in New York City for 1923. Seven thousand dollars is the price of a page advertisement in a single issue of the Saturday Evening Post (cover and centre-page positions higher), the page being less than one-half of the size of a page of this paper. The national weeklies, with their hundreds of thousands of readers attract advertising in immense volume, which is not available to the country newspaper, the local character of which gains only local and therefore limited circulation.

Another instance of saving effected by quantity production is seen in cases of weekly editions of daily newspapers. In these the bulk of the matter used is prepared for and used first in the daily edition; the weekly is a by-product.

In none of the foregoing do we mean to convey low subscription prices; we say let's get all we can for nothing, or next to nothing, but we also say let us not allow our sense of values to become distorted.

The average person cheerfully pays more for gasoline on a summer day's motor drive than

WANTED—Barley or mixed grain and feeder hogs at all times.
Didsbury Feeding Co., per A. R. Kendrick

he is asked to pay to have a newspaper sent to him once a week for a year; the weekly movie in a year takes the price of six to ten subscriptions; chewing or pipe tobacco's weekly outlay over 52 weeks is equivalent to five or six subscriptions; and still we have those who cannot see two dollars value in their home paper in a year. The fact that eighty percent of the weekly newspapers in Canada sell for \$2 a year is evidence, however, that the publishers of those papers are convinced that the investment of time and money involved in newspaper production demands that the price be not lower than \$2.00

A. G. Studer

An indication that big fish are migrating from the waters around Florida and Mexico to New Zealand is forecast in a special cable received recently. Zane Grey, the famous American writer, who is in New Zealand at present, caught the world's record swordfish recently. The monster weighs six hundred and eighty-five pounds and is large in proportion.

Stricken sick suddenly, Mrs. Charles Burns, wife of the president of the Carling Brewing and Malting Company, London, Ont., telephoned to Mrs. Leon, her sister-in-law, wife of the vice-president of the company, who was in Montreal with her husband. Mr. and Mrs. Leon left Montreal in a special Canadian Pacific train, which made the run to Toronto in six hours and forty-three minutes, just in time to make the connection with the regular train which leaves Toronto for London at 6.45 a.m.

Tom, Dick, Jerry and Harry, four born fighters from the fighting county of Yorkshire, England, arrived in Montreal recently on their way to W. W. Graves, United States Supreme Court justice at Jefferson City, Mo. They are not going to the judge to be sentenced for infractions of the peace, but simply because His Honor, being from and in Missouri, wants to be shown whether it is true, as alleged, that the best Indian game cocks can only be got from Yorkshire.

Dogs, pigeons, canaries, rabbits, pedigree fowl, wild birds, gold fish, linnets, ducks, monkeys, caviar, better known as guinea pigs, and parrots were among the livestock carried from Europe and the British Isles to this country and the United States by the foreign department of the Dominion Express Company during 1925, according to the yearly statement recently issued by the company. In the statement was included a total of about 1,000 racing pigeons.

Under the auspices of the St. Jean Baptiste Society, Montreal branch, a special train has been chartered from the Canadian Pacific Railway to carry a party of some five hundred members of the society to Chicago to take part in the Eucharistic Congress to be held in that city in June. During congress week will be celebrated St. Jean Baptiste Day, on June 23, under the auspices of the Patriotic Association of French-Canadians of Illinois, which will conclude with a banquet at which 1,500 guests will be present.

WORLD HAPPENINGS BRIEFLY TOLD

The Spanish Government plans to establish at Cape Juby an air port open to fliers of all nations.

The Academy of Moral and Political Sciences has elected King Albert of the Belgians to succeed Woodrow Wilson as a foreign associate member.

Princess Marie Jose, daughter of King Albert of Belgium, won a piano in a contest conducted by the Belgian Musical Union.

The Japanese Emperor has given permission for the filming of rooms of the Imperial Palace and also the ancestral shrines.

The Washington Post says King Alfonso and Queen Victoria of Spain are to make an extended visit to the United States, probably this autumn.

Dr. Beaumont S. Cornell, of Brockville, Ont., has been chosen to conduct a research on pernicious anemia, provided for by the late Jas. B. Duke, American tobacco magnate.

Prince Alexander Romanowski, second cousin of the late Czar of Russia, has arrived at New York to establish a new Petrograd on Long Island for Russian emigrants.

A League of Nations commission of inquiry is leaving for Persia soon to study ways and means of substituting other crops for the poppy in an effort to curb opium production.

Magistrates and prosecutors in Silesia who have been punishing violators of traffic laws are learning to drive automobiles themselves in order to discover how easily traffic rules can be violated.

It was announced that Hon. J. E. Caron, minister of agriculture in the Quebec Government, is leaving on April 15 for France. There he will represent the province at the international congress of agriculture, which is to be held in Paris.

Pain in the Back Yields to Nerviline

If you have failed to secure relief from other remedies, rub on lots of good old "Nerviline," the strongest, most penetrating pain relief on the market. Nerviline acts quickly on small pains and is the surest to drive out the big ones. It's because every drop of Nerviline rubs in, because it has the ability to sink in deeply that it drives away pain that ordinary ointments won't touch. Large 35c bottles at all dealers.

Canadian Flour For the Orient
According to bookings made up to the present, flour shipments to the Orient in the next three months from the port of Vancouver will run to about 800,000 tons, practically all the tonnage going to Shanghai and Darin.

Internal parasites in the shape of worms in the stomach and bowels of children sap their vitality and retard physical development. They keep the child in a constant state of unrest, and if not attended to, endanger life. The child can be spared much suffering and the mother much anxiety by using a reliable worm remedy, such as Miller's Worm Powders, which are sure death to worms.

Will Speak For Himself
The Prince of Wales is reported to have said to an old war friend: "When there's an interesting announcement to be made about me I'll make that announcement myself."

The man who tried to drown his troubles always seems to have an idea that they are located in his stomach.

ON THE AIR

What is Doing in the World of Radio

One of the tallest towers in the world, built exclusively for commercial radio purposes, has been completed for the German ministry of posts and telegraphs at Koenigs-terhausen, near Berlin.

The Swedish Air Traffic Society is planning an air fleet of "taxicabs." These flying vehicles will be equipped with radio so that the passengers can enjoy concerts as they sail through the air.

The source of static and its favorable playground cannot be located, according to Dr. Lester Brookstahler, Northern University physicist, who has just completed tabulation of reports from a nation-wide radio test.

Station KOA, Denver, will provide mountain newspaper editors with information in case of storms or blizzards which make telephone and telegraph communication impossible. This service is planned to connect the "snowbound towns" with the outside world.

The establishment within the next three months of a plant in Winnipeg for the manufacture of radio vacuum tubes, is announced by N. L. Noah, manufacturer, of Minneapolis, Minn. Creation of this new industry in the Manitoba capital, Mr. Noah declared, would result in an appreciable reduction in the price of tubes.

Delightful Version of the Two-Piece Sports Frock

Many points of interest centre in this sports frock. First, the material, leaf green and fawn tweed, is the smartest thing for these essential costumes, then there is the deep yoke front and back from which extends two box-plaits. The long sleeves are gathered into tight little wrist-bands of contrasting color silk, this harmonizing note being used for the convertible collar and all around belt. It is obvious the skirt, which is joined to a camisole top, gets its fullness by repeating the box-plait of the overblouse. The blouse, No. 1272, is in sizes 34, 36, 38, 40 and 42 inches bust. Size 36 bust requires 2 1/2 yards 36 inch, or 1 1/2 yards 54 inch material. The skirt, No. 1266, is in sizes 34, 36, 38, 40 and 42 inches bust. Size 36 bust requires 1 1/2 yards 36 or 40 inch material, with 1 1/2 yards lining for the camisole top. Price 20 cents each pattern.

Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dress-maker. Price of the book 10 cents the copy.

She Laughed! Thought It Was a Joke

Brooklyn. Mrs. K. Kummer writes,—"Please take notice that I can write again. I have been troubled with what I thought Rheumatism. I laughed when someone suggested that I try Carter's Little Liver Pills for I never thought that my trouble was constipation. About three months later I found out that I am a new person. I am thankful to you for the help your pills have done for me and my friends."

Carter's Little Liver Pills remove the constipation poison from the system. Not habit forming.

Druggists 25 & 75c red packages.

John Dixon Dies in Ottawa

John Dixon, former newspaperman, director of publicity of the commission of conservation during war years, and director of publicity of the intelligence services of the natural resources branch, department of interior, died at Ottawa, aged 57. Born in St. Thomas, Ont., he was at one time manager of the Edmonton Bulletin. A sister, Mrs. W. H. Haslem, of Cranbrook, B.C., is among his survivors.

TOO LITTLE BLOOD

The Cause Of Nearly All The Everyday Ailments Of Life

Too little blood—that is what makes men and women look pale and listless and feel languid. That is what makes them drag along, always tired, never real hungry, unable to digest their food, breathless after even slight exertion, and often feeling that life is scarcely worth living. The doctors tell them they are anemic—the plain English being too little blood.

More weak, anaemic people have been made strong, energetic and cheerful by taking Dr. Williams' Pink Pills than by any other means. The case of Mrs. A. P. Foster, Bowden, Alta., is excellent proof of this statement. Mrs. Foster says:—"Some years ago I was very badly run-down. My doctor attended me for several months and then told me I had better go South to spend the winter as my blood was so poor that he feared I would not stand the cold of our winter. I took his advice and went to my mother's, and as soon as she saw me she said, 'Dr. Williams' Pink Pills are what you need.' She got the pills for me and I began taking them. I had intended staying three months, but at the end of the second month I came home a well woman. When the doctor saw me he said, 'You are all right now, but don't let yourself get run-down again or nothing will save you.' Then last winter I had the influenza, which left me as weak and pale and miserable as before. Again I took Dr. Williams' Pink Pills and again they made me well and strong. I can gratefully recommend the pills for I feel that they have saved my life."

Weak, ailing men and women should begin taking Dr. Williams' Pink Pills today and note the speedy improvement that follows. You can get these pills from medicine dealers or by mail at 50 cents a box by writing The Dr. Williams' Medicine Co., Brockville, Ont.

Plan Fast Air Service

A ten to twelve hours air service between Hamburg and New York is the aim of a newly-formed scientific research society for aviation in higher altitudes, known as the "Gesellschaft fuer Hoehenflugforschung," established in Berlin.

She Couldn't Sleep Heart Was So Bad

Mrs. J. D. McClintock, Charlotte-town, P.E.I., writes:—"About a year ago I was greatly troubled with my heart."

I could not sleep at night, and was so nervous I imagined that I could see everything in the room moving, and would have to turn on the lights before I could get to sleep.

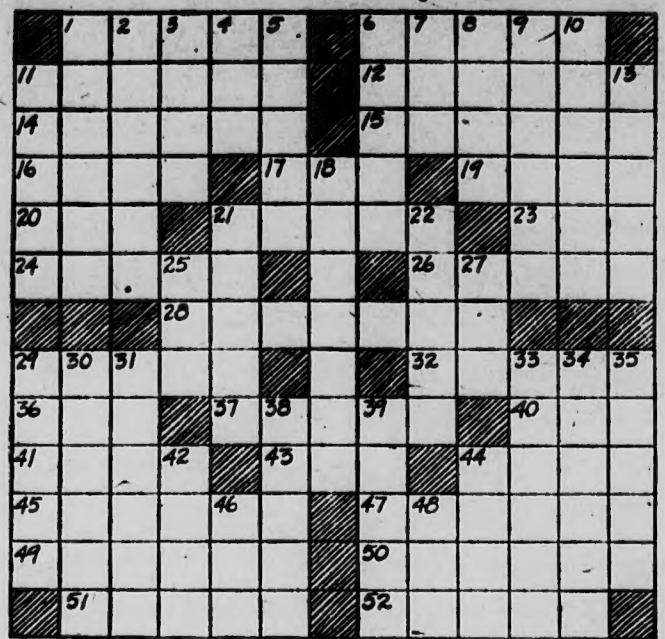

After having read of your

I took several boxes of them, and can now get a full night's sleep without any trouble, and feel fine in every way."

H. & N. Pills have been on the market for the past 32 years; all dealers sell them; put up only by The T. Milburn Co., Limited, Toronto, Ont.

SUNDAY SCHOOL LESSON

MARCH 21

JESUS DIES AND RISES FROM THE DEAD

Golden Text: Therefore doth the Father love me, because I lay down my life, that I may take it again. John 10:17.

Lesson: John 18:1 to 20:23.

Devotional Reading: Psalm 16:5-11.

Explanations and Comments

I. The Soldiers at the Crucifixion, 19:23, 24.—At a crucifixion the garments of the victim became the property of the soldiers who were the executioners. When Jesus was crucified each of the four soldiers had one of his garments, and then they cast lots to see who should have his seamless robe. "That the scripture (Ps. 22:18) might be fulfilled," the Evangelist adds, "which saith: They parted my garments among them. And upon my vesture did they cast lots."

"Few things can make a dying man feel more desolate than to overhear those who sit around his bed already disposing of his effects, counting him a dead man who can no longer use the apparatus of the living, and congratulating themselves on the profit they make by his death. How furious have old men been made by any portrayal of eagerness on the part of their heirs! It was a cruel addition to our Lord's suffering to see these men heartlessly dividing among them all He had to leave" (Dr. Marcus Dods).

II. Christ and His Mother, 19:25-27.—Standing by the cross were the mother of Jesus, her sister Salome, Mary the wife of Clopas, and Mary Magdalene. (The two phrases "His mother's sister, Mary the wife of Clopas," may be taken to refer to one woman, but in that case the two sisters were both called Mary, which is improbable.)

"Thank God for the mothers who cling to us in the hour of our shame, who stick to the sinking ship, who befriend lost causes, who stand near our cross when everybody else has fled! I am grateful that our Lord, in the hour of his passion, could look upon a little company of faithful women" (Dr. J. H. Jowett).

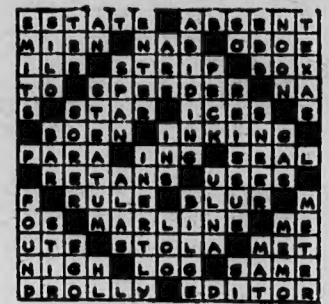

Corns are painful growths. Holloway's Corn Remover will remove them.

Doctors Warn U. S. Women

Twenty-five leading American medical men are meeting in New York to point out to American women the danger of the current craze for boyish figures. They have criticized the desire for slim bodies as a "nation-wide fad without relation to national health," and warned the women that their attempts drastically to reduce their weight are endangering the health of the future generation.

Answer to Last Week's Puzzle

Motors For Roller Skates

Propelled by small acetylene or gasoline-burning motors, roller skates devised by a German engineer are said to develop considerable power and will run not only on pavements but on rough surfaces as well. Controls are operated through connections reached with the hands. The engine is built on principles discovered in making small motors for aeroplanes.—Popular Mechanics.

BLOOD WILL TELL

In your grandfather's time a man lived a vigorous, out-door life. The red blood of courage was in every line of face and showed in every muscle of his body.

Strength of body and strength of purpose mean success.

Get DR. PIERCE'S Golden Medical DISCOVERY

That Reliable Herbal Tonic, from your nearest druggist, in either fluid or tablets.

It will aid digestion, make your blood redder and you will be ready for any task that may confront you.

BAREE, SON OF KAZAN

James Oliver Curwood

A LOVE EPIC OF THE FAR NORTH

Copyright, 1917, by Doubleday, Page & Co.

"BAREE, SON OF KAZAN," a Vitaphone Picture, With Wolf, the War Dog. An Adaptation of This Story

CHAPTER XXXI.—Continued

For a moment Nepeese did not answer. She, too, was looking into the fire. Then she said:

"Tuboa meant to kill him when the spring came, and he could travel. When Tuboa died I knew that it was I who must kill him. So I came, with Tuboa's gun. It was fresh loaded—yesterday. And—M'sieu Jeem"—she looked up at him, a triumphant glow in her eyes as she added, almost in a whisper—"You will not get to Lac Bain. I have sent a messenger."

"A messenger?"

"Yes, Oookimow Jeem—a messenger. Two days ago. I sent word that I had not died, but was here—waiting for him—and that I would be Iskwao now, his wife. Ooo-oo, he will come, Oookimow Jeem—he will come fast. And you shall not kill him. Non!" She smiled into his face, and the throb of Carvel's heart was like a drum. "The gun is loaded," she said softly. "I will shoot."

"Two days ago," said Carvel. "And from Lac Bain it is—"

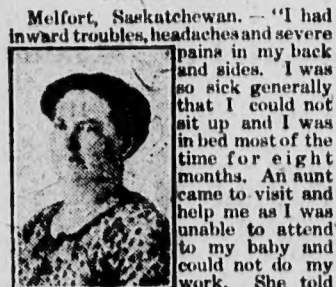

"He will be here to-morrow," Nepeese answered him: "To-morrow, as the sun goes down, he will enter the clearing. I know. My blood has been singing it all day. To-morrow—to-morrow—for he will travel fast, Oookimow Jeem. Yes, he will come fast."

Carvel had bent his head. The soft tresses gripped in his fingers were crushed to his lips. The Willow, looking again into the fire, did not see. But she felt—and her soul was beating like the wings of a bird. "Oookimow Jeem," she whispered—a breath, a flutter of the lips so soft that Carvel heard no sound.

If old Tuboa had been there that night it is possible he would have read strange warnings in the winds that

SICK ABED EIGHT MONTHS

After Taking Lydia E. Pinkham's Vegetable Compound Could Do All Her Work and Gained in Weight

Melfort, Saskatchewan. — "I had inward troubles, headaches and severe pains in my back and sides. I was so sick generally that I could not sit up and I was in bed most of the time for eight months. An aunt came to visit and help me as I was unable to attend to my baby and could not do my work. She told me to try Lydia E. Pinkham's Vegetable Compound, and after taking two bottles I could get up and dress myself. I also took Lydia E. Pinkham's Blood Medicine. When I first took the medicine I only weighed seventy-eight pounds. Now I weigh twice as much. If I get out of sorts or weary and can't sleep I always take another bottle of the Vegetable Compound. I find it wonderfully good for female troubles, and have recommended it to my neighbors. I will be only too glad to answer any letters I receive asking about it." — Mrs. WILLIAM RITCHIE, Box 486, Melfort, Saskatchewan.

Rumors About Kitchener Revived

First Lord of Admiralty Again Denies Fantastic Stories

The suggestion by a Liberal member in the British House of Commons that the boat in which Lord Kitchener left the cruiser Hampshire after she was sunk by a mine in 1916 should be acquired for the nation as a relic, evoked an explicit denial from the first lord of the admiralty of fantastic rumors about Kitchener's death which recently have been revived in England.

Lord Kitchener, said the first lord, certainly did not leave the Hampshire in that boat, and probably not at all. Only a dozen men survived the loss of the Hampshire, and their evidence, which was taken by the admiralty, had cast no light on the disaster.

too, that added the element of caution to his advance. That, and the utter stillness of the night. He broke no sticks under his feet. He disturbed the brush so quietly that it made no sound. When he came at last to the little open where Carvel's fire was still sending a spiral of spruce-scented smoke up into the air it was with a stealth that failed even to rouse Baree. Perhaps, deep down in him, there smouldered an old suspicion; perhaps it was because he wanted to come to her while she was sleeping. The sight of the tepee made his heart throb faster. It was light as day where it stood in moonlight, and he saw hanging outside it a few bits of woman's apparel. He advanced softly as a fox and stood a moment later with his hand on the cloth flap at the wigwam door, his head bent forward to catch the merest breath of sound. He could hear the breathing. For an instant his face turned so that the moonlight struck his eyes. They were aflame with a mad fire. Then, still very quietly, he drew aside the flap at the door.

It could not have been sound that roused Baree, hidden in the black balsam shadow a dozen paces away. Perhaps it was scent. His nostrils twitched first; then he awoke. For a few seconds his eyes glared at the bent figure in the tepee door. He knew that it was not Carvel. The old smell—the man-beast's smell, filled his nostrils like a hated poison. He sprang to his feet and stood with his lips snarling back slowly from his long fangs. McTaggart had disappeared. From inside the tepee there came a sound; a sudden movement of bodies, a startled ejaculation of one awakening from sleep—and then a cry, a low, half-smothered, frightened cry, and in response to that cry Baree shot out from under the balsam with a sound in his throat that had in it the note of death.

In the edge of the spruce thicket Carvel rolled uneasily. Strange sounds were rousing him, cries that in his exhaustion came to him as if in a dream. At last he sat up, and then in sudden horror leaped to his feet and rushed toward the tepee. Nepeese was in the open, crying the name she had given him—"Oookimow Jeem—Oookimow—Jeem—Oookimow Jeem—". She was standing there white and slim, her eyes with the blaze of the stars in them, and when she saw Carvel she flung out her arms to him, still crying:

"Oookimow Jeem—Ooo-oo, Oookimow Jeem—"

In the tepee he heard the rage of a beast, the moaning cries of a man; he forgot that it was only last night he had come, and with a cry he swept the Willow to his breast, and the Willow's arms tightened round his neck as she moaned:

"Oookimow Jeem—It is the man-beast—in there! It is the man-beast from Lac Bain—and Baree—"

Truth flashed upon Carvel, and he caught Nepeese up in his arms and ran away with her from the sounds that had grown sickening and horrible.

ECZEMA IN RASH ON FACE

Itched and Burned. Lost Rest. Cuticura Heals.

"Eczema broke out in a rash on my face and itched and burned causing me to scratch. Later my face got so sore that I could hardly wash it. I lost my rest at night and cried from the pain of it. My face was badly disfigured."

"I tried different remedies without any benefit. A friend advised me to try Cuticura Soap and Ointment so I sent for a free sample. After using it I got relief so purchased more, which completely healed me." (Signed) Leo B. Croft, Crescent Beach, Nova Scotia.

Use Cuticura for every-day toilet purposes. Bathe with Soap, soothe with Ointment, dust with Talcum. Sample each free by Mail. Address: Canadian Agents: "The Canadian Drug Co., Ltd., Montreal, P. Q." or "The Canadian Drug Co., Ltd., Toronto, Ont." Cuticura Shaving Stick 25c.

In the spruce thicket he put her feet once more to the ground. Her arms were still tight around his neck; he felt the wild terror of her body as it throbbed against him; her breath was sobbing, and her eyes were on his face. He drew her closer, and suddenly he crushed his face down close against hers and felt for an instant the warm thrill of her lips against his own.

"He is dead, Nepeese."

"Dead, Oookimow Jeem?"

"Yes. Baree killed him."

She did not seem to breathe. Gently, with his lips in her hair, Carvel whispered his plans for their paradise.

"No one will know, my sweetheart. To-night I will bury him and burn the tepee. To-morrow we will start for Nelson House, where there is a Missioner. And after that—we will come back—and I will build a new cabin where the old one burned. Do you love me, ka sakahet?"

"Out—yes—Oookimow Jeem—I love you—"

Suddenly there came an interruption. Baree at last was giving his cry of triumph. It rose to the stars; it wailed over the roofs of the forests and filled the quiet skies—a wolfish howl of exultation, of achievement, of vengeance fulfilled. Its echoes died slowly away, and silence came again. A great peace whispered in the soft breath of the treetops. Out of the north came the mating call of a loon. About Carvel's shoulders the Willow's arms crept closer. And Carvel, out of his heart, thanked God.

The End.

Can Determine Power

Of Pneumonia Germs

Electrical Instruments Will Reveal Virulence of Killing Power

The discovery of methods for measuring with electrical instruments the virulence of killing power of pneumonia germs from which it is possible to determine how much chance the patient has of recovery, is announced by University of Chicago investigators.

It is hoped the experiments will be useful in developing a serum for the cure and prevention of pneumonia and in determining how the serum works.

Dr. I. S. Falk, assistant professor of hygiene and bacteriology, conducted the experiments.

The investigator also said he had found methods to increase or decrease the virulence of pneumonia germs almost at will.

"It will prevent ulcerated throat. At the first symptoms of sore throat, which presages ulceration and inflammation takes a teaspoonful of Dr. Thomas' Eclectic Oil. Add a little sugar to it to make it palatable. It will allay the irritation and prevent the ulceration and swelling that are so painful. Those who were periodically subject to quinsy have thus made themselves immune to attack."

Tribute To King George

As a practical way of expressing gratitude to the King for his "noble work in the war and peace," a colonial visitor to England has made an anonymous gift of 2,500 pounds towards the cost of restoring Durham Castle.

Rub it in for Lame Back.—A brisk rubbing with Dr. Thomas' Eclectic Oil will relieve lame back. The skin will immediately absorb the oil and it will penetrate the tissues and bring speedy relief. Try it and be convinced. As the liniment sinks in, the pain comes out and there are ample grounds for saying that it is an excellent article.

Little Helps For This Week

Blessed are they that do His commandments.—Rev. xxii, 14.

Mortal, that standest on a point of time,

With an eternity on either hand, Thou hast one duty above all sublime, Where thou art placed serenely there to stand.

—Lord Houghton.

We did not come to our work by accident. We did not choose it for ourselves; but under much which may wear the appearance of accident and self-choosing, came to it by God's leading and appointment. How will this consideration help us to appreciate justly the dignity of our work, though it were far humbler work, even in the eyes of men, than that of any of us here.—Richard Chenevix Trench.

Napoleon put artillery first in importance of arms.

Minard's Liniment for dandruff

The Baby's Cold

Continual "coughing" with internal medicine upsets delicate little stomachs. Treat colds externally with Vicks. You just rub it on.

VICKS VAPORUB

Atlantic Sailings

A total of seventy-six voyages from Quebec and Montreal, will be made during the 1926 season by ships of the Canadian Pacific Steamships, Limited. There will be a sailing from Canada every three days, on an average, throughout the season. Regular service is to be maintained by ten liners.

CHILDREN LIKE THEM

Baby's Own Tablets Are Effective and Easy to Give

You do not have to coax and threaten to get the little ones to take Baby's Own Tablets. The ease with which they are given, as compared with liquid medicines, will appeal to every mother. None is spilled or wasted; you know just how big a dose has reached the little stomach. As a remedy for the ills of childhood arising from derangements of the stomach and bowels they are most satisfactory.

Mrs. Rose Voyer, Williamette, Conn., says: "I used Baby's Own Tablets in the Canadian Northwest and found them a wonderful medicine for children's troubles, especially indigestion and constipation. I have also given them to my children for simple fever and the restlessness accompanying teething and they always gave relief. I can recommend Baby's Own Tablets to all mothers."

Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Gets Another Victim

Old Clubfoot, an enormous man-eating tiger, which derives his nickname from a deformed paw, has killed his seventeenth human victim in Mysore state, India. Most of his victims have strayed from the villages.

H. E. Roppel, pastor

Sure it pays—in a thousand ways.

There will be reception of members and Holy Communion in the morning service next Sunday (Easter Sunday) and this being one of the Easter season's special "Holy Days", all the services of the day will be featured with activities suitable to the occasion including some decorations of palms, flowers, etc.

The choir with their loyal leader, Mr. G. Liesemer is hard at work on the Easter Cantata, "From Cross to Glory", to be rendered on Easter Sunday evening, under the auspices of the choir with the assistance of a few of the Sunday school workers. The program promises to be a treat of rare value and inspiration for the Easter occasion.

Rev. and Mrs. Gauerke, Mayton, Alta., spent four or five days here recently as visitors in the Ev. parsonage, and at J. V. Berscht's, H. Reiber's and others. Mr. Gauerke also preached a helpful sermon in the Ev. church on Sunday morning.

Mrs. J. H. Hu has returned home a week or ten days ago after a two months visit with her daughter, Mrs. (Rev.) W. Miller at Pennant Sack.

Our pastor (Rev. Roppel) spent most of last week in the country at the Westcott appointment and vicinity doing pastoral work. This week he is at Sunnyslope doing likewise there.

In the Legislature.

Edmonton, March 22.

The main business before the provincial house last week was the presentation of the budget for the present year by the provincial treasurer, Hon. R. G. Reid.

For the first time since the present government came into power, a surplus is estimated on the year's working. While a deficit was estimated for last year, the year ended with a surplus of \$148,019. This year the surplus is estimated at \$21,989.46. An extraordinary expenditure of 130,000 is provided for the cost of the general election, which will occur prior to August.

While the net debt of the province had increased over eighteen millions during the past five years over sixteen millions of the increase had been due to commitments entered into by the former administration, and which had to be carried out. These are principally railways and irrigation.

Municipal and provincial taxation in Alberta in 1923, the last year for which statistics are available, totalled 7.7 of production, the lowest of any province west of Quebec.

Last year, said Mr. Reid, saw a repetition of good crops and fair prices for farm produce. New

co-operative marketing services were successfully fostered and inaugurated. Discoveries of oil and wet gas had inspired confidence in heavy oil deposits in the province.

Salt wells in the north were shipping salt by the carload. Sugar beet production last year supported a million-dollar factory. These were but a few evidences that the province had entered upon a new epoch of expansion. The year 1925 was a good one in various lines of activity which usually engaged the people of the province.

The total value of agricultural products in 1925 had been \$241,092,965. Mineral production totalled in the same year \$28,905,718.

Alberta in 1925 led all Canada in the production of coal, crude oil, and natural gas.

That paper could be successfully made from cereal straw had been successfully demonstrated. This would mean a great deal not only to the farmer, but in the opening up of our beds of sodium sulphate and development of the salt industry.

Gas resources and tourist traffic were important in the development of the province. Nearly 150,000 people visited Alberta's parks in 1925. Assuming that only half of them came from without the province, and that they spent only \$200 each, this would mean \$15,000,000. He thought this figure could be doubled with comparative safety.
